IOWAccess Advisory Council
Department of Administrative Services
Information Technology Enterprise
Hover State Office Building
1305 East Walnut
Des Moines, IA 50319

Dear Council,

Thank you for providing Iowa Department of Natural Resources with the funding to research the Web-based Performance Management Application.

The department completed the use case study with the funding provided. During the study the Department changed the goals of the project and reached the conclusion that additional funding by IOWAccess would not fit into the stated goals of the council and will not be pursuing the project further with IOWAccess.

Again, thank you for the funding and it was a pleasure working with Darrell Fremont and Tony Bibbs of the ITE staff.

Sincerely,

Corey McCoid, Executive Officer
Iowa Department of Natural Resources
Water Quality Bureau
